April Sunshine—Arrival and Departure of Steamers—News from the States and Europe—The Gardiner Case—"Jeemes'" Capital Letter—King David's prospects—A dose of Grewell—Theatricals, Stars, &c.

SAN FRANCISCO, April 3, 1854.

Messrs. Chroniclers:—"Now is the Winter of our discontent, made glorious Summer"—not by the "sun of York"—as Richard says in the play, nor by "New York's Favorite son;" but the glorious April sun, that opens the budding flowers, gives a bloom to the cheeks of woman which no pink-saucer-rouge or other pigment can rival; gives every thing animate and inanimate a cheerful glow; lights up the face of nature with a universal smile, and gives an impetus to business, by dispelling the clouds that lowered over the commercial houses of this city, which clouds we trust are in "the deep bosom of the ocean buried." Such instalments of sunshine as have lit up this mundane sphere for the past three days, are worth a premium of at least ten per cent per month. I trust that you and your numerous readers are in the full enjoyments of the same universal blessing, for there is no monopoly in nature's choicest gifts. The sunshine as well as the rain "falleth alike upon the just and the unjust."

The departure of the two steamers belonging to the Mail and Nicaragua Line, and the arrival of the John L. Stephens and the Sierra Nevada of the rival lines yesterday morning, created quite a sensation.

The most important news brought from the East by these arrivals, is the passage of the Nebraska Bill by the Senate. The vote stood Ayes 37, Nays 14. Absentees and dodgers, 11. The passage of the bill through the House of Representatives is considered by the knowing ones rather doubtful, as a strong opposition, headed by Colonel Benton, is arrayed against it in that quarter.

A most important measure for California, is the passage of a bill through both Houses of Congress, extending the Preemption privilege in the State, (which as originally passed in March 1853, embraced only one year,) to two years, during which time it is supposed the public lands in this State will be surveyed. This measure will exert an important influence upon the interests of California, and our Representatives in Congress deserve the thanks of the people of this State for pushing it through.

The famous Gardiner case, involving on of the most stupendous swindles ever perpetrated upon the government, which trial has been going on in Washington for two years, has at last concluded. The ending of the case was indeed most tragical. After being found guilty by the Jury, and sentenced by the Court to ten years imprisonment, Dr. Gardiner, who by the way was a young man of talent and of prepossessing manners and address—who had been one of the lions of the National Menagerie at the Capital—was remanded to the custody of the Marshal of the District of Columbia, remarking that he would carry his case to a higher Court where more mercy would be shown him, he swallowed a dose of strychnine, and in a few minutes was a corpse. This was indeed a most tragical motion for a new trial—a fatal *certiorari*. With him it may truly be said—"The trial is over, the Jury have gone in, and none can now be heard."

The features of this case are familiar to all. Dr. Gardiner, who originally practised the profession of Dentistry in Mexico, and during the war, acted in the capacity of Surgeon, claimed of the United States Government the immense sum of $400,000, for the destruction of certain Quicksilver mines he pretended to have been working extensively when the war between the United States and Mexico broke out, compelling him to abandon the mines. His claim, which was strongly fortified by record evidence "made to order" in the city of Mexico, was allowed by the Commissioners—two hundred thousand dollars paid over, a large portion of which was deposited in one of the Washington Banks by Dr. Gardiner, who started with the remainder to make the tour of Europe. He had not left London before the news of the discovery of his fraud or the question of the validity of his claim reached him. So strong was his faith in the perfection of his work, that he boldly returned to Washington and challenged an investigation. His demand for a trial was complied with, and the case has "dragged its slow length along" for the space of two years, during which time every influence that money and legal ingenuity could bring to bear to procure the acquittal of the accused was resorted to. Witnesses were suborned, important papers stolen from the files of the Court, and nothing was left undone on the part of the defence. The prosecution was conducted with great ability. In order that the accused might be allowed every fair means of exculpating himself from the grave charges against him, two distinct Boards of Commissioners, composed of able and tried men, were sent to look for the mines claimed by Dr. Gardiner, but they could not, after the most diligent search, be found. These mines appeared to have no more permanent location than those discovered in the moon some years since by Richard Adams Locke. The conviction of Gardiner was confidently predicted by all acquainted with the facts of the case, but the fatal afterpiece was a tragedy entirely unlooked for.

The counsel for Gardiner, in procuring the allowance of his claim by the Board of Commissioners in the first instance, received from him a large sum of the monies received for their services. Since this claim has proved to be a gigantic fraud, the question naturally arises, will these honest hombres disgorge. *Quien sabe. Honorable (!)* Thomas Corwin, late Secretary of the Treasury, who was the principal in getting through this scheme for the depletion of the Treasury, when he went into Mr. Fillmore's Cabinet, sold out his contingent interest in the case to George Law, for the snug sum of $80,000—a fat fee truly. Major Lally, the son-in-law of George Evans, one of the Commissioners by whom the claim was adjudicated, and Hon. Waddy Thompson, Ex-Minister to Mexico, associate counsel in the case, were also well *greased*. It is in the highest degree doubtful whether these parties will disgorge their ill-gotten gains.

There is no question but that the recent by trumped up Limantour claim to a thousand acres, embracing within its limits the entire city of San Francisco, was manufactured in the city of Mexico, in similar style to the Gardiner fraud. There is no question but that arch intriguer, Santa Anna, is in cohoot with Limantour in this gigantic swindle. The revelations of Jouan, who was arrested and imprisoned by some of the Mexican authorities, and whose life the despotic Dictator is after, clearly establish this fact. Up to the time of this disclosure a large amount of black-mail had been levied from the property-holders of San Francisco by these high-handed swindlers.

The war in Europe still continues, and all the despotic powers of the earth are by the ears; they are having a regular set-to on an extensive scale. Like the old lady, when her "old man" was having a rough and tumble "scrimmage" with the *bar*, we don't care much which whips. Prussia and Austria, (famous for *Prussian blue* and *ostrich feathers*,) have pitched in, and if in the contest the Russian Bear is not compelled to go into a state of hibernation with a sore head, we are much mistaken. Like the man from low down on Guyan, "in Old Virginny," riding the "claybank hoss of the Messenger stock," the royal "shoulder-strikers" consider this fight "a free thing," and want to be "counted in."

Speaking of war, the arrest of the Mexican Consul for enlisting troops for Santa Anna's service, at the instance of the commanding officer of the Pacific Division of the Army, a few days since, created quite a sensation. Such an arrest is regarded by all nations as *casus belli*; but as Santa Anna has not yet got over his last sound drubbing, it is doubtful whether he will regard it as sufficient cause of war. There is no doubt but that the representative of Louis Napoleon here, Pat Dillon, in the *Greek* vernacular, but *Patrice* Dillon, in his own elegant French *brogue*, is as deeply implicated in this business as the Mexican; but Patrick O'Plenipo gives elegant dinners, gotten up in the finest taste by an exquisite French *artiste*, and besides it wouldn't do to ruffle the feathers of the Gallic game-cock, at this stage of the game.

I am overjoyed to learn from the letter of your able correspondent, "Jeemes," that Squibob has "turned up," on the other side of the Sierra Nevada, when I began to fear that he had taken that "hard road to travel"—"the other side of Jordan." My friend and companion in arms, and your quandam correspondent, I presume has investigated all the Munchausen-like wonders of the great "Yo-Semity Valley," we read about in the reports of the Army officers stationed at Fort Miller;—those roast pigs which hang pendent upon the manzanita and grease wood bushes, and choice old wines hanging in bottled clusters on the grape-vines, are just suited to his taste. The eligibility of this region, as an appropriate site for the Capital is ably set forth by your correspondent, but he omitted the main feature among all these inducements, giving us the play of Hamlet with the part of Hamlet omitted. Although some of the law-makers who congregate at the seat of government, admire a complexion of the peculiar shade of a new saddle, the *white Diggers* said to abound in this new found Acadia, would prove an attraction equal to the load-stone that drew all the nails out of Sinbad's ship.

Give my respects to "Jeemes" and say to him, that that "coronation ode" is looked for with interest, by King David's followers. It is true the cause is in bad odor, and although the Legislature, thinking they were entitled to a monopoly of *wind instruments* silenced an opposition Brass Band belonging to Lee and Marshall' Circus, still "music hath charms." "King David's harp" is said to resemble very much the clinking of "adobes."—The pile appropriated to the advancement of his claims having been exhausted, this music has ceased, and David will be compell to "hang his harp upon the willows," and like "poor Old Ned," "hang up de fiddle an' de bow." His *Organs*, in this city, all of which are near slipping their wind, still grind out their lugubrious notes of praise, which soundwofully like dying groans. Although "David's" Senatorial prospects are generally regarded as "dead in the shell;" there is no doubt but that there will yet be a desperate attempt to hatch the monster out of its corruption.

Senator Kurtz of San Diego has, like "the Member from Santa Clara," been enlightened on the subject of the Senatorial election by his constituents. The richest joke of the season is, however, the administration by the Member first mentioned of the dose of *Grewel*, to King David's Council. This affair which came off a short time previous to the final vote of the Senate, which knocked the shoulder strikers into the middle of next week, has never yet been described in print. The description of the scene by one of "the Council of Ten," whose graceful pen so graphically described "the pomp and circumstance of glorious war," and gave a broad-side at "mulingtary tacklins" generally, in his famous letter to that great Captain Gen. Winn, is like that document. "rich and racy." The General is one of those good-fellows who is not deterred from relating a rich joke although it tells against himself.

Thinking *Grewell* (who is a "singed cat," a *soft* specimen, the party took him in tow—they fed him on soft corn, and corned him on Hedsick and champaigne cocktails. He "Fared sumptuously every day," and altogether lived like a fighting cock. He had an elegantly furnished suit of rooms at the Orleans, equal in magnificence to the apartments of the Duke of Orleans himself. Turkish carpets, divans, ottomans, mirrors, &c., (to say nothing of a magnificent French bedstead with its elegant white counterpane and eider down adorned his rooms in rich profusion. Whither soever he went he had a body-guard to attend him equal in numbers and standing to the retinue of an Eastern Prince, or the famous military attendants of "the illustrious M Gurei" (not Tom, but the Hungarian) during his travels in the United States. It is said that this guard watched so carefully over their charge that they would not allow him out of their sight a moment, and a portion of them were constituted his "*Privy* Council.' All the blandishments of the Seraglio (which department was under the charge of "Old Uncle Ned") were brought to bear upon him.

The enjoyments pictured by "the Gardener's son" (not the Senator from Sierra but Claude Melnotte) in his description of "The Vale of Como," were realized in the case of the Senator from that Italy of the Pacific, the Vale of Santa Clara—But one day after dinner, taking his *siesta*, upon the elegant French bed, (his custom always of an afternoon," his muddyboots in contact with the elegantly worked white counterpane, he awoke from his fairy dream. The Council sat in state, guarding the slumbers of the illustrious Senator, who "lay like a warrior taking his rest," when that illustrious hombre started up like Richard the Third in the tent scene. Like Juliet, leaning his face upon his hand he broke the solemn silence of the conclave with the sepulchral ejaculation of "Boys." His tone was "omnibus," and the Council smelling a rat, were convinced from his manner that something *had broke*. They listened and he continued:

"Boys, I like you all, your'e afirst-rate set of fellows; I like you far more than them fellows on the other side—youve used me like gentlemen, I must say that. I never was so well treated in my life, but theres one thing, *when it comes to voting I can't go with you!*"

Had a bomb-shell exploded in their midst, and hit every individual in the crowd, greater commotion would not have been caused in the Council. *Eli* T—— jumped up and putting his hand into his bosom started off on that game leg to sever his jugular. A venerable San Francisco auctioneer gave a start which brought his gold specs to the floor demolishing the glasses, while one of the more youthful members of the same profession broke out with a deep toned interrogative "Sir-r-r." George the Prime Minister of King David, and author of the Majority address, approached the bed-side and shaking his fore finger *a la Macready* in Cardinal Richelieu, commenced a harangue upon the perfidy of mankind in general and the Santa Clara Senator in particular. The members from the San Jose Mission, *hearded* like the lion in his den, like "little Jack Horner sat in the corner," while the author of the Military letter aforesaid, tilted over his chair, and rolled upon the floor, unable to suppress his risible at this ludicrous scene.

As soon as there was a pause in the wrath of "Gentleman George" which far outdid that of the renowned Peter Stuyvesant, the subject of the lecture continued imploringly. "Dont get into a passion I beg of you, dont get angry but *labor with me—worry with me—dont give me up—you may bring me 'round yet!*"

The curtain fell, and the chap-fallen crowd adjourned to the bar to drown their chagrin, water-*gruel* turned their stomachs. That night the Senator from Santa Clara received important dispatches from his constituents, over the lightning line, and voted for King David next day "over the left." The telegraph is truly a great invention.

Theatricals are flourishing as usual—the Monplaiser and the beautiful Thillon alternating the Hop and the *Hoyden* at the Metropolitan, and large audiences are Burked nightly at the American. There was a theatrical marriage of a beautiful and talented young lady belonging to this company a few days since, which came near having a tragic ending, but which was prevented by the flight of the bridegroom from the stage of action. The Backus Minstrels still draw crowds to their nigger performances.

Among the stars that came on the two last crowded steamers, were the world renowned prodigies, the Little Batemans', the lovely little Denins, the beautiful Laura Keene, and last but not least, the Swan of Erin, Kate Hayes.

I *must* dry up. Excuse haste and a —— bad pen. Yours,

BORAX, M. D

W. W. WARD, Treasurer Mariposa Co.
March 1st, 1854. m31-3t

THOMAS LAWSON vs. M. J. Box, Walter B. Graham, Wm. T. Ray.
In the District Court of the Fifth Judicial District, held in and for Mariposa county. State of California, A. D. 1854.

It appearing to me upon the affidavit of Samuel A. Merritt, Attorney for the plaintiff in the above entitled cause, that the defendants M. J. Box, Walter B. Graham and Wm. Ray cannot, after due diligence, be found in this State, or that they conceal themselves so that a summons in this case cannot be executed upon them; and further, that the plaintiff has a good cause of action against the defendants, and the said defendants are proper parties to be made defendants to this action: It is therefore ordered, that service of the summons in this case be made by publishing the same once a week for three months in the Mariposa Chronicle, a newspaper published in the village of Mariposa, in this State.
Given under my hand, at Mariposa, this, the 27th day of March, A. D. 1854.
J. M. BONDURANT, County Judge.

I, EDW'D. C. BELL, Clerk of the District Court, held in and for the County of Mariposa, do hereby certify that the above is a true copy of the original order now on file in my office.
Given under my hand and seal of office, this 27th day of March, 1854.
EDW'D. C. BELL, Clerk.
By OBS. GRAY, Deputy Clerk.

The State of California,
County of Mariposa.

In the District Court of the 5th Judicial District, held in and for Mariposa county, State of California, A. D. 1854. The People of the State of California, to M. J. Box, Walter B. Graham, and Wm. T. Ray, defendants, *Greeting:*
You are hereby summoned to appear and answer the complaint of Thomas Lawson, plaintiff, in said court filed against you, within ten days from the service of this writ, exclusive of the day of service. If served on you in this county, but if served on you without said county, then forty days from such service, exclusive of the day of service, in an action of debt, wherein the plaintiff claims the sum of Four Hundred and Forty Dollars, with interest thereon from the 23d day of February, '53, at the rate of five per cent per month; said amount being due from said defendants to said plaintiff, upon a promissory note, dated 23d February, 1852, for above mount. If you fail to answer said complaint as directed, the plaintiff will take judgment against you for the aforesaid sum, interest, and costs of suit, by default.
Given under my hand and seal of office, in the Village of Mariposa, this the 27th day of March, 1854.
EDW'D. C. BELL, Clerk.
By CHARLES GRAY, Deputy Clerk.
SAMUEL A. MERRITT, Att'y. for plaintiff. m31-3m

The Certificate of Incorporation of the Merced Water Company:

BE it known to all whom it may concern, that we, R. H. Daly, William C. Burchard, William T. Brown and George L. Trask, all citizens of the United States of America, and residents of Mariposa county, in the State of California, do hereby certify that we have in pursuance of an act of the Legislature, entitled "An act to provide for the formation of Corporations for certain purposes," approved April 14th, A. D. 1853," formed an Association with the view to become a body corporate, under the name, style and title of THE MERCED WATER COMPANY, to exist and continue during the space of fifty years from the 20th day of April, A. D. 1853, with the view and for the express purpose to cut, excavate and construct a certain ditch or canal to convey water for mining purposes, and to supply with water the miners and others now engaged, or who may hereafter be engaged in mining operations adjacent to the said ditch or canal, as hereinafter described:
The capital stock of the said body corporate shall be, and shall amount to the sum of *Three Hundred Thousand, Dollars*, and shall be divided into and consist of *One Thousand shares*, valued at three hundred dollars each.
The said Richard H. Daly, William C. Burchard, William T. Brown and George L. Trask, shall constitute a Board of Trustees, who shall manage the interest and concerns of the said body corporate, for and during the space of three months from the date hereof.
The operations and business of the said body corporate shall be conducted and carried on in the county of Mariposa, State of California:
And the entire route of the said ditch or canal shall be included within the limits and boundaries of the county aforsaid, and so constructed that it may receive, contain and convey twenty or twenty-five cubic feet of water, and shall extend the distance of forty miles, more or less; and the route shall be as follows, to wit:
Commencing and receiving water at the South Branch of the South Fork of the Merced river, near its passage through the river range of hills on the south side; thence around the head of the Fresno, and across the ridge dividing the Fresno from the South Fork of the Chowchilla; thence connecting and emptying into the South Fork of the said Chowchilla, and again receiving the water at a point below its connection with the waters of the said South Fork of the said Chowchilla; and thence continuing along the head of the Chowchilla valley to the middle fork of the said Chowchilla; thence around the slope of the hills to a pass in the ridge around the head of Bear Creek near Carmon's Ranch; thence connecting and emptying into the South-east branch of the Colorado or Stockton creek, again receiving the water below its connection with the waters of the South-east branch of the Colorado or Stockton creek, thence along the slope of the hills across the ridge dividing the Mariposa and Stockton creeks, and crossing the Mariposa creek near its head, to the gap in the ridge between the said Mariposa creek and the head waters of the Agua Fria, and down said stream to a point near the Wild Goose Ranch.
At this point the canal will be divided into two branches—one will convey water to Agua Fria and Carson's; the other connecting and emptying into Green's Gulch, and down the said Gulch nearly to the junction with Bear creek, at this point again receiving the water, and thence over the ridge between Bear and Indian Creeks, across Indian Creek near the falls, and thence into a Gulch running into Horn's Creek above Quartzburg.
Given under our hands and seals at Mariposa, this the 28th day of June, A. D. 1853.

MARIPOSA CHRONICLE.

WHITAGRE & GOULD, EDITORS.

MARIPOSA:

FRIDAY MORNING, APRIL 14, 1854.

☞ MR. PAUL S. NILES, Mail Carrier between this place and Sonora, is hereby authorised to receive any advertisements, job work, subscriptions, or moneys intended for the Mariposa Chronicle.

THE NEBRASKA BILL.

The section relating to slavery, in Mr. Douglas' Nebraska Bill is as follows:

"Sec 21. And be it further enacted, that in order to avoid all misconstruction, it is hereby declared to be the true intent and meaning of this Act, so far as the question of slavery is concerned, to carry into practical operation the following proposition and principles established by the Compromise Measures of 1850, to wit: 1st. That all questions pertaining to slavery in the Territories and in the new States to be formed, are to be left to the decision of the people residing therein, through their appropriate representatives. 2d. That all cases involving title to slaves, and questions of personal freedom, are referred to the adjudication of the local tribunals, with the right of appeal to the Supreme Court of the United States. 3d. That the provisions of the Constitution and laws of the United States, in respect to fugitives from service, are to be carried into faithful execution in all the organized Territories, the same as in the States."

It is here asserted that the Compromise Measures of 1850 provide for the universal application of the above resolution If this is true, its introduction into the Nebraska bill can make no difference whatever. It is unnecessary, and on y afford the abolitionists, from Garrison down, an opportunity to revive their fanatical agitation of the slavery question; while its suppression would prevent any further controversy on the subject. It is hailed by the abolitionists as a perfect god-send for it enables them to keep alive for a short time longer. Every State and Territory possesses, and should exercise the right of establishing its own institutions, more particularly in relation to that of slavery. Yet we believe this renewal of the terrible agitation which convulsed and endangered the whole Union, during the passage of the Compromise Measures of 1850, will only revive the sectional strife which had so nearly died out, owing to the increasing determination of the people to drive localisms and ultraisms, from the political arena. Every school-boy knows that slavery existed in each of the Old Thirteen States; in fact does still exist in New York and New Jersey. Yet the people of that day, when the name of free-soiler and abolitionist was unknown, never dreamed of interfering in matters which were questions of State policy alone, and which did not, and does not concern the people of any State, other than that in which the institution of slavery is attempted to be introduced, or from which it is proposed to be excluded. Notwithstanding that the principles contained in Sec. 21 of Senator Douglas' bill contains nothing but what we cheerfully endorse, yet we consider the introduction of the subject at the present time, as ill-advised and unnecessary—ill-advised because it adds fuel to a fire now nearly exhausted—and unnecessary because it does nothing more than re-enact what has already been established and acquiesced in, by all who are not influenced by motives disgraceful to themselves and injurious to the interests and welfare of the Union.

THE SPRING IMMIGRATION.—Private advices from New York recieved by the John L. Stephens, represent that the California immigration this season will prove extraordinarily large—in all probably exceeding that of the past two years. Tickets o the Steamers both from New York and New Orleans have been sold for the last of May and the first of June at advanced rates. So great is the rush, adds our correspondent, that it is intended to put three independent Steamers on the Aspinwal route during next month or sooner if they can be made ready.

In the western States preparations for travelling overland are remarkably active and extensive. At Cincinnatti, Louisville, Cleveland, Frankfort, St. Louis and other places the "Fever" is raging with unparalleled violence, and, i is thought, will "carry off" the people in greater numbers than ever.

We shall sincerely welcome this accession to our population, hoping however, that all have calculated with their host, and come prepared to settle down permanently, content to reap only the reward of perseverance, industry and energy. The glittering treasure of our placers and gulches, and the generous fertility of our soil, will always yield a rich reward to honest exertion.

SACRAMENTO AND NEVADA RAILROAD.—We learn from Mr. C. A. McNulty, of San Francisco, that the arrangements for commencing and carrying through this important pioneer work are now fully complete Mr. C. L. Wilson the chief director, writing from Washington under date of March 4th., says, he has purchased and shipped all the Iron, Cars, Locomotives, Turning-tables, chairs &c. requisite for the first twenty miles of the road from Sacramento, and that he would immidiately proceed to contract for iron and rails necessary for the remaining fifty miles. The terms of these purchases and contracts we understand are of the most favorable character. Mr. Wilson it is expected will arrive in San Francisco, by the next Nicaragua Steamer, with a full corps of competent engineers.

Governor Stevens of Washington Territory, was to address the people of San Francisco last Monday evening, on the subject of a Pacific Railroad.

Letter from "Borax"---No. 4.

Reflections on a Sunrise from Telegraph Hill —Business in San Francisco—Fizzle out of the Filibusters—Another Senatorial gag, &c., &c.

SAN FRANCISCO, April 10, 1854.

Messrs. Chroniclers:—"The top o' the morning to ye," gentlemen, this pleasant specimen of an April day. As your correspondent is an early riser, if not a *rising* man—and one who does not require to take a pint of yeast, or some stronger preparation of the hop, upon going to bed at night, in order to *rise* in time to see the sunrise the next morning.

Long ere the God of day tinged the mountain tops, with his golden beams, in keeping with the yellow treasures hidden within their deep recesses, I had climbed Telegraph Hill, and in the full enjoyment of the refreshing morning breeze feasted my eyes upon the lovely view before me. As that old buccaneer, Balboa, said when like Zacheus, he climbed a tree upon the Isthmus, and caught the first view of the beautiful bosom of the Pacific, gently heaving like that of a maiden of sweet sixteen, as her ear drinks in a tale of love "It was indeed a most goodly sight;" but how few enjoyed it, for the whole city was wrapt in sleep. With Sancho Panza this class can truly say 'blessed be the man that invented sleep, for it covers a man all over like a blanket." Some of them may be like the London cockney, who accustomed to rise at twelve, upon seeing a sunrise upon one morning, when he was compelled to be abroad before that time, expressed his astonishment at the graduat culmination of that luminary. From having each day first seen the sun at its meridian, he very sagely remarked "he always thought it went up like a sky rocket."

There is but little news of interest afloat in the Bay City. It is said by those who know, that business is improving: yet still there is a general complaint of dull and hard times. Money is still said to remain very *tight*. (If it keeps so *tight* much longer, there is some doubt if it ever gets *sober* again,) and trade dull. Peace reigns over the city, if Plenty does not. The doctors all complain that "it is alarmingly healthy." The golden harvests of the lawyers no longer bring such paying grists to the mill. The merchant grumbles All branches of business are more or less affected, yet all classes hopefully look forward to that "good time" which has been so long said to be "coming."

One of the leading topics of conversation since my last has been the decision of the Supreme Court, in the case of Thorne and others against the city, by which the latter loses something over a half a million, which goes into the pockets of the cormorants who have fattened upon such spoil for a long time. It has been said that "corporations have no souls;" but if this state of affairs, continues much longer, that of San Francisco will have neither soul or body.

The Filibustering Expedition has at last fairly "fizzled out," Walker and his followers having come out at the little end of the horn. Like the buccaneers who infested the Pacific in former times, and who derived their name from "boucan," (dried bull's beef,) the valorous President of the Republic of the two stars, and his brave associates have descended to *sheep stealing* The intelligence brought by the Goliah which arrived from below last evening, being that they had killed the herdsmen of a flock of several hundred sheep which they were driving towards the Colorado The President's army had dwindled down to about seventy men, most of whom are said to be "Cap'ns," and the rest high privates.

There is a rumor which has been alluded to by some of the papers, current here that the Electionists have concocted a new scheme, to elevate King David to his long coveted seat in the National Sanhedrim. *It* is proposed by this set to make a pretence of dropping David, and going in for a redoubtable Militia General, formerly a Member of the General Assembly from the County of Solano. The General is a right clever fellow personally, but his fame either as a Warrior or Statesman has never "astonished the natives" We never heard exactly where he buried his dead,—he may have a graveyard of his own appropriated to this special purpose, but we believe his military renown is mainly based upon the celebrated letter addressed to another officer, and companion in arms, which went the rounds of the papers a few months since.

It is the intention of this ruse to get the opposition, if possible, to agree to go into Convention, when after some *chenanigan* at a given signal—most probably the drop of the hat, or, as the General is fond of military music, the tap of the drum—the martial candidate is to be dropped like a hot potatoe, and David rung in. It is to be a regular "ball game"—"now you see it, and now you don't"—the "little joker" will be nowhere. This "weak invention of the enemy," shows what desperate shifts David and his party are compelled to resort to.

There is something in the wind. The friends of "the favorite son of York"—the same that sat up with Brother Grewel—and "labored with him" when he thirsted in spirit, have been in an awful stew for some days past, raising the ways and means to carry on the war. Their defeat is certain, but the will die hard.

I see that Marks, of the Sacramento Union, disclaims being your correspondent. As the Borax family is somewhat extensive, confusion will sometimes occur "Accidents will happen in the best regulated families," and we give the Union man a credit mark for his denial.

I hear Wells, Fargo & Co.'s wagon on its way to the boat.

Adios Senors.

BORAX, M. D.

[CORRESPONDENCE OF THE MARIPOSA CHRONICLE.]

MARIPOSA CREEK, April 12, 1854.

Messrs. Editors:—According to promise I send you this slip of paper, with its contents, and hope it may not offend any one. My travels have been varied for the past month, and of course this will be a mixed up mess.

A great majority of your readers are more or less acquainted with our good natured ex-Sheriff, Major James Birney, who now lives on a beautiful ranch on the Stanislaus—the one formerly owned and occupied by Colonel Hubbs, now Superintendent of Public Instruction of this State, who gave the place the name of Camp Washington. Well, to make a long story short about the Major, I will venture to say that he is one of the most obliging, wide-awake, and amusing landlords that California can boast of, and I advise all who want a *treat* in the way of good fare anecdotes and more of them in the same length of time than they ever heard, to stop all right with him, when they travel within twenty miles of his place. Next on my way up, I stopped with Messrs. Shroeder & Myers, on the Merced river There I found a superb stone house, two stories high and about forty-five feet long, with a spacious dining, sitting and bar room, on the first floor in front, and Ladies parlor and bed rooms on the second floor, with an extensive verandah in front, and take it all in all, its masonry, carpenter work and plastering, it would be an ornament and credit to any city, and the fare and manner in which it is conducted, fully corresponds with this fine building, and i is somewhat surprising to me that it has not been made a stage stand before this As I wandered along up the river, just below Messrs. Murry & Phillips' Ferry, I found a large building in rapid process of erection, and was informed that it was intended for a flour mill, and would be complete and ready to grind by the first of July next. Mr. Nelson from San Francisco, is the enterprising proprietor. By this time I began to think your county was "sum pumpkins," but when I reached my next stopping place, to my horror I found that the landlord had been shot dead in his own house, and that house in a moment turned to a house of mourning. The scene there witnessed would have melted a heart of stone; by the ruthless hand of a daylight assassin, an affectionate wife is made a widow and two innocent children fatherless. But I have since learned that there are others—more than mere spectators and acquaintances—to sympathise with that bereaved widow, not only to soothe her sorrow by kind consoling words, but have nobly reached forth the hand of benevolence—(one of the cardinal principles of their institution, of which Mr. Corbett was a member)—and relieved her of the weighty pecuniary embarrassment which this disconsolate lady and her children were left under by the untimely end of an affectionate husband and father. That institution is the time-honored and God believing Masons. Since arriving in your thriving village, I have visited Millville on Sherlock's, where I had the pleasure of examining an extensive and exceedingly substantial Saw Mill about ready to go into operation. It is owned by Messrs. D. White & Co., and I venture to say that Mr. I. Rodgers, its builder, can not be beat in the saw mill line. I also called on Mr. J. Marshal, who is still doing well in his mining operations, still lower down the creek at a place called Whitlock's. I found my old friend Dr. Bunnell and his gentlemanly partner, Mr. C. Chapin, crushing out quartz rock to advantage to their pockets—the Doctor working as hard as any of them, (excepting perhaps a short time in the morning, after a social gathering.

The miners on Sherlock's are doing an excellent business Now pardon me and I will stop. Yours &c.

TRAVELER.

Hereafter we shall present our readers with a summary of Legislative proceedings. We would have done so during the previous part of the session, if anything had been accomplished worthy of attention; but such has not been the case.—The time of our Solons have been taken up entirely thus far in discussing three measures, at great expense—the Bribery case, the Removal question and the Preemption claim of King Broderick. If neither of these had ever been brought up, the State would be several thousand dollars better off, and the reputation of many of our Legislators been spared the odium now attaching to them.

MURDER OF A. H CORBETT.—The following account of the murder has been handed us with the assurance that it is a correct one:

"Mr. Corbett was murdered at his residence, at the foot of the Big Hill on the Stockton road by a man named Cooper, commonly known as "Kentuck." The latter had stopped over night at the house of Mr. Corbett, and was seen in the morning to examine his revolver very carefully. He took breakfast, and as soon as the company present left, he ordered his horse and told Mr. Corbett to charge his bill, as there was a balance due him (Cooper) for hay. Mr. Corbett replied that he was not indebted to him, and that he had never seen him before. Cooper said he was a partner of Mr. Farns. Mr. Corbett explained that he did not owe any balance to Mr. Farns, and that if Cooper would walk into the house he would show him receipts from Farns—speaking in a mild, gentlemanly manner. At this time Mrs. Corbett requested her husband to leave the man, and not have any words with him. When Mr. Corbett entered the bar-room, and while looking for the receipt, Cooper drew his pistol and shot Corbett, killing him almost instantly, in the presence of his wife and children."

IMPORTANT COMMUNICATION FROM COL. GIFT—VALIDITY OF SCHOOL LAND WARRANTS.

REGISTER'S OFFICE,
BENECIA, CAL., April 2d, 1854.

Editor San Joaquin Republican—Sir:—I see an article published in the Stockton Journal of April 1st, in which it is stated that I have received instructions from the Commissioner of the General Land Office, authorizing me to issue patents on the locations of State school warrants. I must say that such is not the case. Some time since, Gen. Hastings wrote to the Commissioner, requesting him to return him his State warrants after they had been confirmed by the Secretary of the Interior, as his vouchers against the State, so that he could have the same patented to him from the State of California. But, in reply, the Commissioner informed him that those warrants would have to be retained by the Government, and therefore authorized me to issue certificates of location upon the locations of said warrants, after the lands have been surveyed and subject to location by said warrants. I have received no instructions upon the subject which have *not* been unpublished, and the law remains as it ever has been, giving the preemptor the preference on all unsurveyed Government lands.

In reply to his inquiries in relation to the fee charged by me, I will say that I charge it for the certificate which I give, and *not* for the registering as he states.

Yours, respectfully,
WM. W. GIFT. Register.

PUB. DOC.—We are under many obligations to our able Senator, Hon. Wm. M. Gwin, for a huge package of valuable and interesting Reports, and other documents.

THANKS.—We acknowledge the receipt of favors from Messrs Herbert and Henry of the Assembly, for which we return thanks.

DEAN & O'DONNELL.—We acknowledge the receipt of a Demijohn of cocktails from this new firm in our city. See their advertisement in another column.

The Sacramento Union sums up the result of the recent election in that city as follows:

The average Whig vote on the seven city officers was, 1882; and the average democratic vote on the same officers, was 1593. Average Whig majority on city officers, 289

The Grand Division of the Sons of Temperance will hold its next quarterly session at Sacramento City, commencing on the fourth Tuesday in the present month

LAST OF THE FILIBUSTERS.—The Filibusters, (says the Daily California Courier,) have finally ended their campaign in Lower California. Walker and his remaining companions have start d for Northern Sonora where they expect to settle or to make their way to Texas. It would, perhaps, be impolitic to return to California, although we believe that should they come back here and agree to abandon their Quixotic operations, they would not be severely dealt with.

They have suffered enough to cure them effectually of fillibustering. It is not likely however that they will return to California. Many will remain in Sonra, while others will make their way to Texas, or settle in the interior of this State

The following particulars have been handed to us by Mr. Roan, Dept. Sheriff It will be seen that everything that an officer could do was done, and we honestly believe the murderer would have been caught had he not received aid from some of his friends. We advise our friends about Millerton to keep a sharp lookout for him:

"I left Corbett's on the morning of the Murder, and had gone about two miles from the house when I was overtaken by Mr. Burchard, who informed me that Mr. Corbett had been killed by Cooper. I ran my horse all the way back, leaving the road for a short distance to procure the assistance of Mr. Coho Young. Here we were detained about fifteen minutes when we proceeded to the house, and after learning all the circumstances and procuring some arms, started after Cooper. He had been gone about two hours, and we soon ascertained that he was avoiding all public places, houses, etc., and that it would be impossible to track him through the mountains; we accordingly determined to go to his camp at once and watch that night, thinking he would probably come in to prepare for his escape. We procured the assistance of such of the residents as were disposed to aid us—although very few could be induced to join in watching the several places where he would be most likely to come for assistance, but we saw nothing of him that night.

Next morning we went to McDermot's ranch fifteen miles above on the Mariposa, where we learned tha Cooper had been seen crossing the creek at Savage's old camp the evening before, going towards the Chowchilla. Upon our arrival there, we learned that the murderer had crossed the Ft Miller road, taking the direction towards the lower settlements on the Fresno, and that Mr. Appling and party were on his track. Mr. Young and myself fearing that Cooper might take the trail through Pecheco's Pass, concluded to strike for the ferries and different passes After closing all these, we proceeded to the Four Creeks, where I hired an Indian to carry the news to Tejon Pass.

We then retraced our steps but were not able to pursue the rascal after our arrival in Mariposa County for want of horses and money; so we concludod to return to the Village of Mariposa and recruit and again pursue the chase."

IMPROVEMENTS — Substantial improvements are going on in the south end of the City, says the Sonora Herald, in the way of dwelling houses A number of elegant and commodious buildings of this description have been erected in the last few months. These have been demanded by the arrival of an increased number of families, and is an indication of the permanent settlement and prosperity of the place. As a summer residence, Sonora is not equaled by any other city in the Southern mines. The salubrity of its climate, the beauty of its situation, and its pure mountain air, render it preferable in this respect to all others.

[FOR THE MARIPOSA CHRONICLE.]

MERCED RIVER, March 29th 1854.

RUSSIA WHIPPED! HURRAH!

Messrs Editors:—The following is from the San Joaquin Republican, March 18th 1854.

Editor San Joaquin Republican:—The House to-day passed the bill creating a new county out of the western portion of Tuolumne. The bill was amended so as not to include any portion of Mariposa, and the new county is christened Stanislaus County. The Mariposa delegation, in the Assembly, were opposed to having any of their county cut off to form a portion of the new county. The people on the Merced have a right to know why they have been excluded, which they can doubtless ascertain by referring to the editor of the Mariposa Chronicle, or almost any of the county officers at Mariposa—Dr. Horr is entitled to the thanks of the people of his district for the interest he has taken in the bill, and his successful management in getting it through the Assembly. J. P.

For this act we will vote for the "*Mariposa Delegation*" if they should ever be candidates; we will try to get a new subscriber for the "*Chronicle*," and we will give the honor due the "*County officers*," because they have guarded the interests of the County, and not cast the children's bread to the dogs. Should Jonny Pumpkin cry, *we* will not. OLD FEL.

The Mexican Consul, in San Francisco, Senor Louis del Valle, has been arraigned on an indictment, "for hiring and retaining a great number of persons to engage in the service of a foreign power, to wit, the Republic of Mexico," and plead "not guilty." His bail was fixed at $10,000.

THE CRY IS, STILL THEY COME.—The Steamship Sierra Nevada of the Nicaragua Line and the Mail Steamship Jno. L Stephens, both of which arrived at the Bay last Sunday morning, each reported 950 passengers, the extreme number allowed them under the provisions of the "Passenger Act." We can assert, however upon more reliable authority that the first named vessel had nearly *two hundred* more than appeared on her list, and the Stephens about *three hundred and fifty* more, making a total excess of over *five hundred*.

OPPOSITION.—The people of Shasta have made arrangements for the formation of a steamboat company to do their own carrying, and in opposition to the Steam Navigation Company. We hope that the efforts of the good people of Shasta will be seconded by every enemy to such odious combinations as that of the monopoly Navigation Company of San Francisco.

SENTENCE OF COLONEL WATKINS.—We learn from our San Francisco exchanges, that Colonel Watkins, convicted of being engaged in Walker's Filibustering expedition in the South, was last Friday sentenced by the United States District Court to pay a fine of $1.500.

We find the following correspondence in the columns of the San Joaquin Republican:

MERCED RIVER, April 1st, 1854.

Messrs. Editors:—Public attention of late has been attracted towards the agricultural lands in the valley of the San Joaquin, but in no portion of the valley can better farming lands be found, than on the Merced river. One of the earliest places and best cultivated, is that settled by the Hart's, and now owned by Taylor & Co. This ranch embraces about 500 acres, at the mouth of Dry Creek, and is well timbered The proprietors have fenced some 300 acres, and, at the present time, have 200 acres sowed with wheat and barley. Back of the ranch is an excellent range for stock, and I know of no place on the Merced that combines so many facilities for money making as this. One undivided half of the place is offered for sale, with an interest in the growing crops, teams and agricultural implements, and if any of your numerous readers desire a good and cheap farm here is an excellent chance to get it. Our crops look well, and the farmers generally, along the river, are putting in their corn and potatoes. Mariposa, this year, will raise all the agricultural products she needs for consumption. We need a good flouring mill on the river, and hope some capitalists will see the advantage of investing money in such an enterprise. M.

IMMENSE GOLD DISCOVERY AT THE HEAD OF RUSSIAN RIVER.—We have just seen a respectable gentleman, who resides near Russian River, who informs us that an immense gold field has recently been discovered near the head of that river, where parties have already taken out per day twenty-five and fifty dollars worth of gold. It is said to be the richest diggings in the State. The field, from all appearance, is a very large one. It is situated in the county of Mendocino, about forty miles from Petaluma. Persons desiring to visit this place should go first to Petaluma, and from there the stage goes within two miles of the mines.—*Daily California Courier.*

We are inclined to the belief that this immense discovery will prove to be a second edition of the Gold Lake and Gold Bluffs humbugs. Those who run after such new and very rich diggings, frequently return to their old camps with a good sized flea in their ears.

NEW PAPER.—A new weekly Democratic paper, to be called the Pioneer Democrat, will be established at Auburne, Placer county, in a few days, by Shannon & Leach.—*Union.*

MINER'S EXCHANGE
AND
Savings Bank,
ARMORY HALL, SAN FRANCISCO:
By Dr. A. S. Wright.

GOOD NEWS FOR THE MINER.—The United States Branch Mint in the city is now in full operation.—The miner is hereby informed that DR. WRIGHT will receive and receipt for Gold Dust for U. S. coinage, committed to his care, either by Express or otherwise, *free of charge*, and the nett proceeds held subject to the order of the owner, bearing an interest in favor of the depositor of one and a half per cent per month, as soon as coined; and always payable on demand. Funds remitted to the Eastern States at 90 days sight, free of charge, as also funds sent to Europe at 120 days sight, without expense.

Miners will please forward with treasure such instructions as they may desire, with the assurance that no commission will be charged at this Banking House.

DIED:

On Monday, March 27th, of Consumption, at the farm of Capt. Vinsonhaler, on the Fresno, JULES C. DUCATEL son of the late Professor Ducatel of Baltimore, Md., in the 20th year of his age.

He was the only son of his widowed mother—and here if I followed the dictates of my own judgment, I should stop, confident that these few and touching words would awaken all the sympathies that in our busy and self engrossed lives we have to bestow on a stranger, but at the request of one who knew and was interested in him from the time he left his home, I proceed to give a few particulars of a life which, though so early finished, contained more of vicissitude and suffering than usually falls to the lot of one so young. In the fall of '48 he left Baltimore to cross the mountains with Col. Fremont's party, who, it will be remembered, suffered so much from cold and starvation. But although a very delicate boy, he survived where strong men perished—and it was hoped that he would live to be a support and comfort to his mother; but the same insidious disease which had bereft her of husband and daughters, has now taken her only son—though as yet she knows it not. In this country his intelligence and good conduct have procured him the respect of all who knew him. In the long and tedious sickness which preceded his death, he found consolation and support in the doctrines of the Catholic Church, in which he had been educated, and was resigned to die. A rude cross marks his resting place, and though no parent's hand can tend his grave with the care peculiar to their faith, flowers bloom around it now, and in a little while it will be more profusely adorned by the hand of nature, than it could be by all the efforts of man. E. V.

Wonderful Changes
GOING ON
Throughout the World!!!

BUT none has taken place within the last month, of half the importance to the people of California, as the one among Restaurant and Hotel Keepers upon the announcement that

M. L. WINN HAD FAILED.

The second or third day after he had left the

"Fountain Head"

THE PRICE OF BOARD WAS ADVANCED

About one-half by all the Restaurants in Town,

and even those holding a little brief authority at the "Fountain Head," followed in the footsteps of their illustrious predecessors in the attempt to FORCE the people to pay DOUBLE the former price for Board—and that, too when provisions cost mere nothing.

WILL THE PEOPLE SUBMIT TO SUCH IMPOSITION? If not, then

RALLY TO THE "FOUNTAIN HEAD,"

Where will be found a Bill of Fare nearly as low as in any of the Eastern Cities.

Since our return to our old position, placards may be seen upon nearly every restaurant in the city, "Potatoes and bread served with all dishes of meats free of charge." What a wonderful change! Four weeks ago it was declared to be a losing game to furnish these things without pay, and the people had to pay for them because WINN was out of the way, and the restaurant keepers could do as they pleased—but mark the difference, WINN IS AGAIN AT THE "FOUNTAIN HEAD," and down comes the prices, and the people are called upon to patronize these very philanthropic gentlemen for the only reason that they furnish board at a fair rate, whenthey are compelled to do so by the proprietor of

"WINN'S FOUNTAIN HEAD."

With these things in view we call upon the people to come to the "Fountain Head" *en masse* and live well and cheap while they can, for when we retire again from business, board will cost double in San Francisco what it does to-day.

MARIPOSA CHRONICLE.

RELIGIOUS NOTICE.—Rev. N. McCristion will preach in the Methodist Episcopal Church South, April 16th, at 2 o'clock, P. M.

The Stockton Journal learns from one of its Mariposa correspondents, that "the Chronicle is to come out this week in favor of the Senatorial election this session."

Well this is funny! That correspondent must have had the "guygugles" come over him by some person in the mountains. Perhaps he was under "spiritual influences."

If the Mariposa Chronicle does favor that election, it will be when the *office* is drunk, not otherwise.

NEW WATER COMPANY.—We are informed that a Company is forming for the purpose of bringing the water of the San Joaquin into this and other sections of this County.

Dr. Bunnell who is at the head of this important and necessary enterprise, is one of most energetic, go-ahead business men in the County. We wish it every success, and hope our citizens will aid to the extent of their ability in carrying out so laudable an undertaking.

FUNDING THE COUNTY DEBT.—We understand that the Court of Sessions has made a move towards funding our county debt. This is as it should be. The court has adjourned for two weeks, in order to ascertain the indebtedness of the county.—Associate Justices Sharp and Gaines deserve great credit for the part they have taken in the matter. Should we be so fortunate as to get the debt of this county funded, it will not be over two years, at the farthest, before it would be paid, and our paper at par.

UPPER AGUA FRIO.—Our mining news from this place are of the most flatttering kind. Messrs. Parker & Reynolds made during last week the following: on Monpay, 8 oz. and $4; Tuesday, 10 oz.; Wednesday, 4 oz. and $6; Thursday, 9 oz.; Friday, 6 oz.; and on Saturday, 12 oz.—This is only one weeks work, and speaks well for the richness of our diggings.—There are plenty of claims at this place unworked for want of miners.

MARIPOSA.—We hear that rich strikes are being made in the creek only a few hundred yards from town, by Messrs. Wilis, Waters & Co. At Log Town, about a mile above here, there are extensive and very rich hill diggings. Two drifts have been run into a hill there some two hundred feet from which nine and ten ounces have frequently been taken in one day by two or three men.—These drifts are now in possession of our enterprising friends, Messrs. Broadhead & Co, and Wilson & Co.

We trust they will reap a rich reward for their energy and perseverance.

Messrs. Krafft, Howell & Co. of the Soda Factory in this town, have presented us with specimens of their abilities in the 'Pop' line, for which we are "much oblige," and recommend the 'peoples' to make a rush on their establishment, satisfied that the Fountain won't "dry up."

BRICK MAKING.—Why is it that this important branch of industry has never been entered upon in Mariposa? Our hill sides are covered with excellent material, and a considerable demand would immediately arise if there was any prospect of a supply. Several thousand brick would be taken at once if they were furnished at reasonable cost, say $10. or $12 per thousand.

If some industrious person would go into this business, we are convinced that they would in a short time make not only a pile of brick, but of "slugs" "tambien."

COULTERVILLE.—We learn from Mr. Holmes, of Maxwell's Creek, that Quartz mining is attracting considerable attention in that vicinity. In addition to the French Company's Quartz-mill about two miles below the village, which has been in successful operation for sometime; another will soon be put up on the ledge near the town; preparations having been made for extensive operations.

The placer diggings on the creek are improving daily, owing to the increased facilities in the way of ditches, improved implements etc. The village of Coulterville is situated on a beautiful flat on Maxwell's Creek, in the centre of one of the most pleasant and romantic vallies to be found in California, and bids fair to become one of our most prominent mountain towns.

We learn from a friend of ours just returned from a trip to Buckhorn Flat and Davis's Gulch that the miners in that section are doing remarkably well. These diggings have been worked more or less for the last four years and, are yet only skimmed over. Like the Mariposa' Agua Frio, and in fact nearly all the gulches in this County. Davis's has only been worked in its main channel—the banks and flats lying along its course being still untouched.

The miners of Upper Agua Frio are generally doing very well; some of them exceedingly well. Messrs. Kaufman & Parker are now working a claim near the town of Upper Agua Frio, from which they have for some time passed averaged more than an ounce per day to the hand, and often as high as 20 to 25 dollars.

"PUFF."—The genuine Havana cigars are to be found at Cohn & Co. on Main street. Just drop in and try 'em.

ADAMS & CO.—We are under many obligations to Messrs. Adams & Co. for full files of the Panama Star.

"Gus," from Pena Blanca will appear next week.

THE PATTERN RESTAURANT OF CALIFORNIA;

And we now call upon the public in general and our friends in particular, to sustain us in our efforts to keep the price of GOOD BOARD in San Francisco, where we have ever kept it, within the reach of the toiling mechanic and laborer, as well as the millionaire; and in conclusion, we ask the public to remember the course pursued by Restaurants throughout the city the moment we had retired from the field. Do you recollect how suddenly the old Bills of Fare were removed from the tables and new ones placed thereon, with prices about double? and all because WINN was not about to regulate the matter. QUARTZ ROCK JEWELRY.
BARRETT & SHERWOOD

BEG leave to announce the arrival of a celebrate
LAPIDARY ARTIST,
engaged especially in the East for them. The machinery for this exquisite branch of their business is of the most improved and perfect description, being ordered for their establishment here, without any regard to cost.

They are now able to cut and test all kinds of precious stones and gems; no longer therefore, need the curious treasures of our soil and mines remain unregarded and undeveloped. Quartz rock mixed with gold, when cut and polished, makes the most beautiful and unique style of jewelry. Rings, Pins, Studs, Seals, Cane Heads, Coat Buttons, and a hundred different things, can now be manufactured from it, that for beauty of design and elegance of finish would be highly appreciated in the Eastern States, rendering them, above all other souvenirs, the most superior for home presents. Call and see them at

BARRETT & SHERWOOD'S
Montgomery street, one door from Commercial street, San Francisco.

N. B.—Quartz mixed with gold, suitable for cutting purchased at from one to five hundred per cent., above the net gold value. feb10

FRUIT TREES, VINES,
AND
SHRUBBERY.

CITIZENS OF CALIFORNIA—Having seen the great attraction of the Horticultural Fair and the splendid Oregon Apples, sold in San Francisco for one and two dollars a piece, you know that Oregon Fruit and Fruit Trees are

NO HUMBUG.

Many of the Trees and Vines that we sold last winter have *Produced* fruit this season, and all have given satisfaction for the truth of which we refer to our patrons: Rev. O. C. Wheeler, Rev. Isaac Owen, Hon. J. L. Lease, Gen. J. A. Sutter, Maj. W. J. Jacks, Napa City; Hon. C. Hester, O. E. Crosby, W. W. McCoy, E. L. Beard, and Franklin, San Jose Valley; Messrs. Johnston & McCabe, R. Buckelew, Mr. Weaver, of Stockton, and J. W. Robinson, of San Diego.

Farmers, Gardners and Ranche Owners, are your grounds in readiness? The earlier you plant the better. It affords us pleasure to inform you that we will open in about ten days, in the basement of the Commercial Advertiser Building, on Montgomery street, between Clay and Washington, the finest lot of choice Fruit Trees, of every variety and kind ever offered in this market, as also Vines, Plants and Shrubs, both useful and ornamental, of every variety, a full assortment of which will be kept complete by semi-monthly arrivals from Oregon up to April 1854. Our prices will be reasonable, and all the ee offer to the public will be warranted alive and true to the label.

Also, all kinds of Garden Seeds for sale.

We will also warrant that our Trees can be carried to any part of this Coast, or to any of the Islands with success.

Orders solicited, to which prompt attention will be given. Purchasers will please call and examine at the above place. San Francisco, Dec. 13, 185.

War in Europe!
BUT PEACE AND PLENTY HERE!

THE PROPRIETORS OF THE RAILROAD BAKERY AND COFFEE SALOON, 48 *Commercial street, San Francisco*, between Battery and Front, return thanks to a generous public for the very liberal patronage bestowed upon them for the past twelve months have for the purpose of better accommodating the public, and somewhat relieving the Commercial street side from its continual and overflowing crowds, arranged and fitted up their brick building (directly in the rear,) No. 87 Clay street, with much care, taste and expense, for a Breakfast, Lunch and Supper Room, and the same will be opened to the public on Monday the 13th March, 1854, where every article will be manufactured on the premises, from the very best material, with the utmost care, taste and cleanliness—every branch of the business being under the immediate supervision of experienced and thorough workmen. We being our own Landlords, and manufacturers of our own articles, in all their branches, as well as our own dairymen, give us facilities over all other like establishments. There will be no connection between the Clay and Commercial street sides until we erect our new building on Commercial street the coming season, only so far as the whole is under one general supervision.

REPORT OF THE COMMITTEE ON PREMIUM PLOWS.

MESSRS. E. L. BEARD, WM. NEELY Thompson, and J. Bryant Hill, the Committee appointed to award a silver plate to the manufacturer of the best California-made plow on exhibition at the Agricultural Fair of Warren & Son, haae awarded the plate to Messrs L E Morgan & Co. The plate is valued at $100. The following is the report of the Committee:

The undersigned having been appointed a committee to examine the several plows presented for exhibition and premiums at Warren & Son's State Fair, having attended to that duty, submit the following report:

The several plows offered for exhibition and premiums were as follows:

L E Morgan & Co—Steel Peoria Plows, viz:

Clipper No 6, a highly finished plow, with wheel and coulter, cutting 14-inch furrow; Clipper No 16, wheel and coulter, 16-inch furrow; Clipper No 18, wheel and coulter, 18 inch furrow; Clipper No 20, wheel and coulter, 20-inch furrow.

Peoria Plain or Prairie-land Plows:

No 5, fine steel and finished, cutting 10-inch furrow; No 5 1-2, same style and quality, cutting 12-inch furrow; No 6, same character, cutting 14-inch furrow; No 7, same, 16-inch furrow.

L E Morgan and Co exhibited in the Hall a most superb and highly finished clipper or prairie plow, cutting a 16-inch furrow, reflecting great credit upon the workmen in the several departments of their manufactory in the construction of their plows; also a most beautiful model, a miniature plow, that was exhibited upon the table in the Hall, and attracted much attention.

There were also cast plows from the celebrated manufactories of Ruggles, Nourse and Mason of Worcester, Mass, John Mayher and Co of New York, and others, consisting of deep-tillers, side-hill, sub-soil, centre-draft, etc, etc. but as these were not put in competition, the committee can only say that for cast iron plows, they hold their usual high rank.

The plows manufactured in this State being the only ones entitled to premiums, and this being the principal duty of the committee, they proceeeded to the examination.

A wrought steel plow from Stockton had been exhibited, but was withdrawn from competition.

The various steel plows from Messrs Morgan and Co, were such as to give pleasure in their examination, and the committee find them manufactured in the most satisfactory manner, and most creditable to the proprietors. From the abundant testimony before the committee, they are satisfied of their being the very best plows, and most thoroughly made, and plows that give greater satisfaction than any other steel plow in the country.

The committee, in view of the facts before them of the high merit and most excellent reputation of their real worth, award to L E Morgan and Co., the premium prize, a silver plate, valued at $100.

The committee hope that with another year, many new varieties of plows, adapted to all forms of culture, the side-hill, the sub-soil and deep-tiller, will be manufactured by our citizens, and thus retain at home the wealth of our State for the real benefit of our people.

REMOVAL.
DR. J. C. YOUNG,
HAS removed his office from 226 1-2 Dupont street to the corner of Montgomery and California streets, opposite the Banking House of Page, Bacon & Co., where he will be happy to consult with his former patrons, and treat scientifically and with discretion, all those who may require the services of a physician. The success of Dr. Young since his advent in this State, has been without a parallel, and he hopes by continued and untiring application to his profession, to remove from the public mind that lack of confidence which has so unhappily existed in regard to the medical profession in the State of California.
P. S.—All letters enclosing $10 will receive immediate attention. Direct box 735, Post Office, San Francisco.

---

DR. J. C. YOUNG,
OF SAN FRANCISCO.
READ AND REFLECT.
"If there is a hereafter,
(And that there is, conscience uninfluenced,
And suffered to speak out, tells every man,)
Then it is an awful thing to die,
More horrid yet to die by one's own hand,
Self-murder—name it not!
Shall Nature, swerving from her earliest dictate,
Self preservation, fall by its own act?
Forbid it, Heaven."

THE indulgence in secret practices is the most certain, though not always the most immediate and direct avenue to destruction. Physicians of all ages have been most unanimously of opinion that the loss of one ounce of the seminal secretions, by unnatural aid or emissions, weakens the system more than the abstraction of forty ounces of blood. One of the FIRST writers on medical jurisprudence states that three-fourths of the insane owe their malady to such abuse.

How important, then, it is—for every one having the least cause to suspect any trouble in that way, should attend to it immediately; even one single occurrence should be sufficient to cause doubt, and much more so if the person had ever indulged in the soul-killing habit. The treatment pursued by the justly celebrated Dr. J. C. Young, in cases of seminal weakness, impotency, sterility, nervous debility, and paralysis, (the last is the most dangerous, and when it once occurs, is incurable,) is surpassed by any physician in the country. It is the same as that followed by him for years, under the guidance of the world-renowned *Record* of Paris, and *Acton* of London. Dr. Young's office is corner of Montgomery and California streets, opposite Page, Bacon & Co., San Francisco, California, where he can be consulted upon that and all other private diseases, with the utmost confidence and secresy. Dr. Young will warrant a perfect and permanent cure, or make no charge.

N. B.—Letters enclosing $10 will receive prompt attention. The doctor's time being so much taken up that he cannot attend to letters unless paid for it.

P. S.—Apartments privately arranged.

A CARD.

FROM Dr. J. C. Young's Private Medical Office.—TO THE AFFLICTED.—In this age of progress, when science is developing itself in such a manner as to appear almost miraculous, everything in common place is looked upon as not worth notice. In view of this fact, DR. YOUNG, corner of Montgomery and California streets, San Francisco, California, has concluded to leave the beaten track hitherto pursued by most scientific physicians, (that of waiting for the public to find you out alone,) and publish to the world, as much as may be, his knowledge of the healing art, to let those who are in need of assistance know where they can find relief,, without fear of being imposed upon.

In continuation of this object, Dr. Young would say that for the past ten years he has pursued the practice of medicine in one of the largest cities of the United States, with the highest success, and that his standing as a physician is without reproach, having at one time been lecturer at the University of Pennsylvania on venerial diseases, &c.

Upon all these considerations, Dr. Young has confidence in introducing himself to the public, knowing that they will sustain well earned merit.

The following are a few of the many testimonials, which have appeared in the public journals the last few years:

[From the Boston Medical Journal.]

Although we are opposed to the system of advertising, for good and sufficient reasons, still we deem it but justice to say that Dr. Young is one of the most industrious and indefatigable votaries of the medical science in the United States.

[From Professor Jackson.]

The subscriber is personally acquainted with Dr. Young, and has seen much of his practice, and can bear testimony to his merits as a practitioner.

[From the New York Herald.]

The eminence of this distinguished gentleman in his profession, and the very extended opportunities possessed by him for the observation of venereal disease, makes his services invaluable to those afflicted with the above complaints.

MEDICAL ADVICE.

DR. J. C. Young, who has become so celebrated for the thousands of cures which he has performed on old, chronic, mercurial, syphilitic, and all private diseases, without mercury, is consulted daily at his office, corner of Montgomery and California streets, from 9 A. M. to 8 P. M. A cure guaranteed or no pay.

Dr. J. C. Young has probably had more practice in venereal diseases than any other physician in California. He cures all the most aggravated cases of this disease, and mild ones he removes in from two to five days. The doctor has for many years, been known as the most eminent and successful physician in the United States, and what is more important to the patient, he always effects a speedy and permanent cure.

Travelers, seamen, miners and others, who wish to be cured without mercury, hindrance from business, or exposure to friends, should apply to him as soon as possible, and a perfect cure will be guaranteed in all curable cases. Recollect the name and number, Dr. J. C. Young, corner of Montgomery and California streets.

Office open from 9 A. M. to 8 P. M.

CONSTITUTIONAL DEBILITY,

OR SEMINAL WEAKNESS.—Dr. Young addresses those who have injured themselves by private and improper indulgences in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society. The following are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, in pain the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE ORGANS
immediately cured and full vigor restored.
DR. J. C. YOUNG,
Corner of Montgomery and California streets.

For sale as above, the celebrated French Lunar Pills, these pills are now acknowledged by the medical fraternity to be the only safe, mild and efficacious remedy to be depended upon in long standing cases of suppression, irregularity, or stopping of the functions of nature, the neglect of which is the source of such deplorable effects on the female frame.

N. B.—These pills are highly celebrated as a preventive.

Price $5 per box. DR. J. C. YOUNG,
Corner of Motgomery and California streets.

PRIVATE MEDICAL OFFICE.

HUNDREDS of those who have contracted disease are disappointed of a cure by not calling on DR. YOUNG at first. He will forfeit any sum if he fails to cure any case that may come under his care, no matter how long standing and afflicting, such as ulcers, tumors, nodes, bunches, pimples on the face and body, pains in the bones and joints, wakefulness, trembling, copper-colored sores, wasting of the bones, emaciation, loss of appetite, strength and flesh, sores in the nose and ears, loss of hair, weak eyes, itching humors, &c., &c. Many persons, after being relieved of all external appearances of private disease, suppose themselves cured, but after a few months find they are troubled with various symptoms which they never had before, and which they find it impossible to relieve.

To all who are afflicted in this way, Dr. Young would particularly recommend a trial of his skill. The symptoms with which you are troubled are caused by taints in the blood, which sooner or later will destroy your health and happiness. No person who has ever had an attack of any private complaint should fail to consult Dr. Young, and take a few bottles of his invaluable purifying medicine, as they can rest assured that their blood is in a perfectly pure and healthy condition, and that every trace of disease is removed from the system.

Recent cases cured in from two to five days, without change of diet or hindrance from business, or no charge.

HIGHLY IMPORTANT DISCOVERY.

DR. J. C. YOUNG, who is celebrated for curing all private complaints of both sexes, has discovered a remedy for the cure of old, long standing cases of gonorrhæa and gleets, which he has tried in more than one hundred cases, successfully, many of which had baffled the skill of eminent physicians for years; and in not one single case has it failed, nor can it ever fail, as the nature of the remedy is such that it strikes at the root of the complaint, and eradicates it completely in a few days. New cases cured in an incredibly short space of time, without change of diet or hindrance from business.

N. B.—A permanent cure guaranteed to all in the shortest possible time, or no pay will be taken.
